re: Application No, 32163
Your file 582-555 Israel

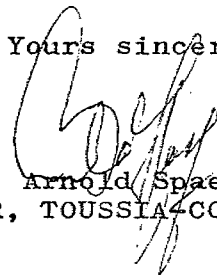

In the above matter, the Registrar has now notified us that this application seems to lack novelty in view of the existence of U.S. Patents Nos. 2754828 and 2992647.

The description of your application is not acceptable as three separate claims, unrelated to each other, are made.

Some alterations are required in accordance with the notes made by the Registrar on your description and drawing which we are enclosing herewith.

Will you please let us have your instructions and return the documents as soon as possible.

Yours sincerely,

Arnold Spaer
